Starline
A brand of legrand

Versatile Power Distribution for Laboratories

Starline busway systems give laboratories the ability to adapt to ever-changing power needs. Our flexible plug-and-play systems enable you to add or relocate circuits to manage equipment upgrades or moves. Available in a wide range of amperages and ingress protection ratings, Starline busways are easily customized to meet the unique needs of different lab environments.

BENEFITS

- Fast installation and modification with minimal disruption
- Future-proof design simplifies growth without the need for rewiring
- Scalable, relocatable, and reusable

FEATURES

- Plug-in units tap instantly at the exact point of use.
- Open channel design eliminates numerous runs of additional conduit.
- IP2X and IP54 systems are available for environments subject to liquids or debris.
- Modular design optimizes customizability and scalability while simplifying reconfiguration.

TECH DATA

- Customizable section lengths up to 20ft
- 40 to 1250 amp systems, 1- and 3-phase
- Rated up to 600VAC or 600VDC
- UL, NEC, ETL & IEC certifications
- Up to IP54 ingress protection
